STRATEGIC REPORT FOR THE YEAR ENDED 31 JULY 2019

The directors present the strategic report for the year ended 31 July 2019.

Fair review of the business

Bloomsbury Institute Limited's principal activities during the year continued to be that of delivering higher education courses. The company delivers full-time undergraduate degrees in Business, Accounting and Law that are awarded by the University of Northampton.

In 2018, the company made an application to register with the newly created Office for Students (OfS) to whom regulation was transferred. The company applied under the "Approved (fee cap)" status. This would have allowed the company to charge tuition fees for undergraduate courses of up to £9,250 for UK and EU students who access funding through the Student Loans Company (SLC), rather than the current maximum of £6,165.

The company was refused registration by the OfS on 23 May 2019. This meant that the company's courses were no longer approved to enable new UK and EU students to access funding through the SLC. As a result of this the company applied for and was approved by the OfS to teach-out existing students for a 3-year period, through to 31 July 2022.

Based upon robust legal advice, the company and its directors were of the opinion that the decision by the OfS was unlawful. The company issued judicial review proceedings against the OfS. The case was heard in the High Court in February 2020. The High Court held that the OfS had acted lawfully. On 21 May 2020, the company was granted permission to appeal to the Court of Appeal, and its request for the hearing to be expedited was granted. It is anticipated that the appeal will be heard before 31 July 2020, with the judgment delivered by 30 September 2020.

Development and performance

Turnover increased by 41% year on year. This was mainly due to the recruitment of 1,291 new students in 2018/19 compared to 1,033 students in 2017/18.

The company's net asset position at year end decreased to £942,479 from £974,233 in the prior year.

Profit before tax and exceptional items increased by £1.358m largely driven by the increase in student numbers. The company incurred a loss before tax of £31k compared to a profit before tax of £168k in the previous year mainly due to the exceptional item of £1.4m relating to legal and restructuring costs.

STRATEGIC REPORT (CONTINUED)

FOR THE YEAR ENDED 31 JULY 2019

Principal risks and uncertainties

Below is a description of the risk factors that the directors and management believe affect the company's business operations. Not all factors are within the control of directors and management and other factors not stated could also affect the company.

Compliance and regulatory risk

Higher Education is heavily regulated within England. Legislative and policy changes affect the company's day to day business.

As stated above, the company has not been registered by the OfS and given that the company has been granted permission to appeal to the Court of Appeal, the risk from a regulatory perspective is non-registration.

Notwithstanding the fact that we are not registered with the OfS the company still seeks to ensure compliance with all OfS conditions of registration through its corporate and academic governance arrangements. The company maintains an OfS Compliance Risk Register that includes all the OfS conditions of registration. The Risk Register is submitted to the Board of Directors for review every two months. The Audit Committee (that comprises two non-executive directors) reports directly to the Board of Directors. The Audit Committee oversees compliance with the OfS conditions of registration. It has the power to require the attendance of any executive director, member of staff and/or external academic advisor of the Academic Committee at any of its meetings. Some of the OfS conditions of registration are separately included in the Corporate Risk Register. The Corporate Risk Register is reviewed every three months by the company's Senior Management and Leadership Team, and the Board of Directors.

VAT Position

As noted in the previous year, the company's Board of Directors believe that the supply of higher education is exempt from VAT based on expert advice from EY. HMRC have now confirmed this position with effect from 1 October 2015.

Economy: COVID-19

The COVID-19 pandemic resulted in a lockdown throughout the UK and all higher education providers had to close their campuses. The company moved quickly to provide online classes to students, replaced on-campus examinations with online assessments, and ensured that support from staff continued at the same levels, in order to maintain a high-quality student experience.

Following the change in delivery method, feedback from students was very positive.

Given the current uncertainty relating to the next academic year (2020/21) the management team is exploring different scenarios in consultation with students.

As the company is not in a position to recruit new students in 2020/21, the risk of COVID-19 on the company is considered to be minimal.

Leaving the EU

Following the UK's withdrawal from the European Union, new EU students will cease to be eligible for funding through the SLC. However, based on the company's current student population this is believed to represent a small risk. The vast majority of the company's EU students have been in the UK for over 5 years prior to starting their course. This has allowed them to be classified as home students for SLC-funding purposes.

As stated above, this will only become relevant if the company secures OfS registration, thus enabling it to recruit new students.

STRATEGIC REPORT (CONTINUED) FOR THE YEAR ENDED 31 JULY 2019

Credit risk

Credit risk refers to the risk that the company's students or other debtors will default and fail to make payments in accordance with the agreed terms.

Although there is a risk that the company's privately paying students fail to pay their fees in full, the whole amount contributed by privately paying students constitutes 5% of the company's total revenue. The remaining 95% of the revenue is received through the SLC which is a non-profit making organisation approved by the government, and hence the risk of default is insignificant.

In addition, the company normally requires a 25-50% deposit before privately paying students start their course, leaving the funds at risk at a maximum of 3% of the total revenue.

Liquidity and solvency risk

The company's management does not consider there to be a liquidity and solvency risk due to the healthy Balance Sheet that is included in the financial statements that follow. The company currently has £5,532,883 in current assets and only £2,570,137 in current liabilities. In addition, the company has a loan with its parent company valued at £5.2m, that, by decision of the Board of Directors, can be capitalised into equity. Any liquidity and solvency risk is further reduced as the parent company has extended this loan to 29 October 2025, and has granted the company with an option to extend the loan by a further period of up to five years.

On behalf of the board

Mr J Fairhurst **Director**

26 June 2020

DIRECTORS' REPORT

FOR THE YEAR ENDED 31 JULY 2019

The directors present their annual report and financial statements for the year ended 31 July 2019.

Principal activities

The principal activity of the company continued to be that of the provision of higher education services.

Directors

The directors who held office during the year and up to the date of signature of the financial statements were as follows:

Mr J Fairhurst Ms C A Cook Mr N O Jhaveri Mr T R Mortimer Mr T J Forsblad

Results and dividends

The results for the year are set out on page 8.

No ordinary dividends were paid. The directors do not recommend payment of a final dividend.

Financial instruments

The company's principal financial instruments comprise bank balances, trade creditors, trade debtors and property leases. The main purpose of these instruments is to raise funds and to finance the company's operations.

Due to the nature of the financial instruments used by the company, there is no exposure to price risk. The company's approach to managing other risks applicable to the financial instruments is shown below.

In respect of bank balances, the liquidity risk is managed by always maintaining a positive balance by using the loan from the parent company, if necessary. The company makes use of bank deposit account facilities where funds are available.

The company is a lessee in respect of leased properties. The liquidity risk in respect of this is managed in the same way as loans.

Trade debtors are managed in respect of credit and cash flow risk by policies concerning the credit offered to students and the regular monitoring of amounts outstanding for both time and credit limits.

Trade creditors' liquidity risk is managed by ensuring sufficient funds are available to meet amounts due.

Future developments

As detailed in the Strategic Report, because the company has not secured OfS registration, it is unable to recruit new students and is teaching out its current students. Therefore, the company's revenue in 2019/20 is expected to be significantly lower than in 2018/19.

The company is pursuing an appeal to the Court of Appeal against the OfS's decision to refuse the company's registration. If this appeal is successful, the company anticipates that it will be registered by the OfS. This will enable the company to resume recruitment of new students in 2021/22.

Auditor

The auditor, Berley Chartered Accountants, Statutory Auditors, are deemed to be reappointed under section 487 (2) of the Companies Act 2006.

DIRECTORS' REPORT (CONTINUED) FOR THE YEAR ENDED 31 JULY 2019

Statement of directors' responsibilities

The directors are responsible for preparing the annual report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- · select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Statement of disclosure to auditor

So far as each person who was a director at the date of approving this report is aware, there is no relevant audit information of which the company's auditor is unaware. Additionally, the directors individually have taken all the necessary steps that they ought to have taken as directors in order to make themselves aware of all relevant audit information and to establish that the company's auditor is aware of that information.

On behalf of the board

Director

Mr J Fairhurst

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF BLOOMSBURY INSTITUTE LIMITED

Opinion

We have audited the financial statements of Bloomsbury Institute Limited (the 'company') for the year ended 31 July 2019 which comprise the statement of comprehensive income, the statement of financial position, the statement of changes in equity, the statement of cash flows and notes to the financial statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including FRS 102 *The Financial Reporting Standard applicable in the UK and Republic of Ireland* (United Kingdom Generally Accepted Accounting Practice).

In our opinion the financial statements:

- give a true and fair view of the state of the company's affairs as at 31 July 2019 and of its loss for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice;
 and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial statements* section of our report. We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which the ISAs (UK) require us to report to you where:

- the directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the company's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of our audit:

- the information given in the strategic report and the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and the directors' report have been prepared in accordance with applicable legal requirements.

INDEPENDENT AUDITOR'S REPORT (CONTINUED) TO THE MEMBERS OF BLOOMSBURY INSTITUTE LIMITED

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified material misstatements in the strategic report and the directors' report.

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- · we have not received all the information and explanations we require for our audit.

Responsibilities of directors

As explained more fully in the directors' responsibilities statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: http://www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

Mark Levy (Senior Statutory Auditor)

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 JULY 2019

1 Accounting policies

Company information

Bloomsbury Institute Limited is a private company limited by shares incorporated in England and Wales. The registered office is 7 Bedford Square, London, WC1B 3RA.

The principal activity of the company continued to be the provision of higher education services.

1.1 Accounting convention

These financial statements have been prepared in accordance with FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" ("FRS 102") and the requirements of the Companies Act 2006.

The financial statements are prepared in sterling, which is the functional currency of the company. Monetary amounts in these financial statements are rounded to the nearest £.

The financial statements have been prepared under the historical cost convention. The principal accounting policies adopted are set out below.

1.2 Going concern

These financial statements are prepared on the going concern basis. The directors have a reasonable expectation that the company will continue in operational existence for the foreseeable future, due to the financial support provided by the parent company in the form of a long term loan.

As detailed in the Strategic Report, the company is pursuing an appeal to the Court of Appeal against the decision of the Office for Students (OfS) to refuse its registration. If this appeal is successful, the company anticipates that it will be registered by the OfS. This will enable the company to resume recruitment of new students. In this event, there would be no doubt as to the company's ability to continue as a going concern. If this appeal is unsuccessful, the company will be in a position to teach out its current students and it will be able to wind up the business and settle all creditors in full. The directors, having considered the above, therefore continue to adopt the going concern basis in preparing the financial statements.

The COVID-19 pandemic resulted in a lockdown throughout the UK and all higher education providers had to close their campuses. The company moved quickly to provide online classes to students, replaced oncampus examinations with online assessments, and ensured that support from staff continued at the same levels, in order to maintain a high-quality student experience. The risk of COVID-19 on the company is considered to be minimal.

1.3 Turnover

Turnover from the provision of education services is recognised when the services has been provided at the end of each term, and when the amount of revenue can be measured reliably and it is probable that the economic benefits associated with the transaction will flow to the entity.

1.4 Tangible fixed assets

Tangible fixed assets are initially measured at cost and subsequently measured at cost or valuation, net of depreciation and any impairment losses.

Depreciation is recognised so as to write off the cost or valuation of assets less their residual values over their useful lives on the following bases:

Land and building Plant and machinery

Over the remaining lease term Between 2 and 6 years straight line

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 31 JULY 2019

1 Accounting policies

(Continued)

The gain or loss arising on the disposal of an asset is determined as the difference between the sale proceeds and the carrying value of the asset, and is credited or charged to profit or loss.

1.5 Impairment of fixed assets

At each reporting period end date, the company reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

1.6 Cash and cash equivalents

Cash at bank and in hand are basic financial assets and include cash in hand, deposits held at call with banks and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities.

1.7 Financial instruments

The company has elected to apply the provisions of Section 11 'Basic Financial Instruments' and Section 12 'Other Financial Instruments Issues' of FRS 102 to all of its financial instruments.

Financial instruments are recognised in the company's statement of financial position when the company becomes party to the contractual provisions of the instrument.

Financial assets and liabilities are offset, with the net amounts presented in the financial statements, when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

Basic financial assets

Basic financial assets, which include debtors and cash and bank balances, are initially measured at transaction price including transaction costs and are subsequently carried at amortised cost using the effective interest method unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest. Financial assets classified as receivable within one year are not amortised.

Other financial assets

Other financial assets, including investments in equity instruments which are not subsidiaries, associates or joint ventures, are initially measured at fair value, which is normally the transaction price. Such assets are subsequently carried at fair value and the changes in fair value are recognised in profit or loss, except that investments in equity instruments that are not publicly traded and whose fair values cannot be measured reliably are measured at cost less impairment.

Impairment of financial assets

Financial assets, other than those held at fair value through profit and loss, are assessed for indicators of impairment at each reporting end date.

Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows have been affected. If an asset is impaired, the impairment loss is the difference between the carrying amount and the present value of the estimated cash flows discounted at the asset's original effective interest rate. The impairment loss is recognised in profit or loss.

If there is a decrease in the impairment loss arising from an event occurring after the impairment was recognised, the impairment is reversed. The reversal is such that the current carrying amount does not exceed what the carrying amount would have been, had the impairment not previously been recognised. The impairment reversal is recognised in profit or loss.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 31 JULY 2019

1 Accounting policies

(Continued)

Derecognition of financial assets

Financial assets are derecognised only when the contractual rights to the cash flows from the asset expire or are settled, or when the company transfers the financial asset and substantially all the risks and rewards of ownership to another entity, or if some significant risks and rewards of ownership are retained but control of the asset has transferred to another party that is able to sell the asset in its entirety to an unrelated third party.

Classification of financial liabilities

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.

Basic financial liabilities

Basic financial liabilities, including creditors loans from fellow group companies are initially recognised at transaction price unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future payments discounted at a market rate of interest. Financial liabilities classified as payable within one year are not amortised.

Debt instruments are subsequently carried at amortised cost, using the effective interest rate method.

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Amounts payable are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities. Trade creditors are recognised initially at transaction price and subsequently measured at amortised cost using the effective interest method.

Other financial liabilities

Derivatives, including interest rate swaps and forward foreign exchange contracts, are not basic financial instruments. Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value. Changes in the fair value of derivatives are recognised in profit or loss in finance costs or finance income as appropriate, unless hedge accounting is applied and the hedge is a cash flow hedge.

Debt instruments that do not meet the conditions in FRS 102 paragraph 11.9 are subsequently measured at fair value through profit or loss. Debt instruments may be designated as being measured at fair value though profit or loss to eliminate or reduce an accounting mismatch or if the instruments are measured and their performance evaluated on a fair value basis in accordance with a documented risk management or investment strategy.

Derecognition of financial liabilities

Financial liabilities are derecognised when the company's contractual obligations expire or are discharged or cancelled.

1.8 Equity instruments

Equity instruments issued by the company are recorded at the proceeds received, net of transaction costs. Dividends payable on equity instruments are recognised as liabilities once they are no longer at the discretion of the company.

1.9 Taxation

The tax expense represents the sum of the tax currently payable.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 31 JULY 2019

1 Accounting policies

(Continued)

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the reporting end date.

Deferred tax

Deferred tax liabilities are generally recognised for all timing differences and deferred tax assets are recognised to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Such assets and liabilities are not recognised if the timing difference arises from goodwill or from the initial recognition of other assets and liabilities in a transaction that affects neither the tax profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at each reporting end date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised. Deferred tax is charged or credited in the income statement, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity. Deferred tax assets and liabilities are offset when the company has a legally enforceable right to offset current tax assets and liabilities and the deferred tax assets and liabilities relate to taxes levied by the same tax authority.

1.10 Employee benefits

The costs of short-term employee benefits are recognised as a liability and an expense, unless those costs are required to be recognised as part of the cost of stock or fixed assets.

The cost of any unused holiday entitlement is recognised in the period in which the employee's services are received.

Termination benefits are recognised immediately as an expense when the company is demonstrably committed to terminate the employment of an employee or to provide termination benefits.

1.11 Retirement benefits

Payments to defined contribution retirement benefit schemes are charged as an expense as they fall due.

1 12 | 62565

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessees. All other leases are classified as operating leases.

Assets held under finance leases are recognised as assets at the lower of the assets fair value at the date of inception and the present value of the minimum lease payments. The related liability is included in the statement of financial position as a finance lease obligation. Lease payments are treated as consisting of capital and interest elements. The interest is charged to profit or loss so as to produce a constant periodic rate of interest on the remaining balance of the liability.

Rentals payable under operating leases, including any lease incentives received, are charged to profit or loss on a straight line basis over the term of the relevant lease except where another more systematic basis is more representative of the time pattern in which economic benefits from the leases asset are consumed.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 31 JULY 2019

2 Judgements and key sources of estimation uncertainty

In the application of the company's accounting policies, the directors are required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised where the revision affects only that period, or in the period of the revision and future periods where the revision affects both current and future periods.

3 Turnover and other revenue

	2019	2018
Turnover analysed by class of business	£	£
Provision of tuition fees	12,094,030	8,568,640
	2019	2018
Other significant revenue	£	£

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 31 JULY 2019

18	Finance lease obligations		
	Future minimum lease payments due under finance leases:	2019 £	2018 £
	Within one year	5.190	24.532

Finance lease payments represent rentals payable by the company for certain items of plant and machinery. Leases include purchase options at the end of the lease period, and no restrictions are placed on the use of the assets. The average lease term is 3 years. All leases are on a fixed repayment basis and no arrangements have been entered into for contingent rental payments.

19 Retirement benefit schemes

Defined contribution schemes	2019 £	2018 £
Charge to profit or loss in respect of defined contribution schemes	49,561	22,599

The company operates a defined contribution pension scheme for all qualifying employees. The assets of the scheme are held separately from those of the company in an independently administered fund.

20 Share capital

	2019	2018
	£	£
Ordinary share capital		
Issued and fully paid		
100 Ordinary shares of £1 each	3,275,029	3,275,029

21 Operating lease commitments

Lessee

At the reporting end date the company had outstanding commitments for future minimum lease payments under non-cancellable operating leases, which fall due as follows:

	2019	2018
	£	£
Within one year	413,153	467,308
Between two and five years	1,295,178	1,488,340
In over five years	623,333	843,333
	2,331,664	2,798,981

22 Related party transactions

Transactions with related parties

During the year, the company paid expenses of £52,685 (2018: £220) on behalf of its immediate parent company, Goldwait Limited. The company has a long term loan with Goldwait Limited and was charged interest of £121,253 (2018: £51,609) on the balance outstanding. Due to the terms of the loan, the movement of £458,113 (2018: £531,442) on the fixed asset investment is reflected in the loan. The balance due to Goldwait Limited as at 31 July 2019 was £5,200,898 (2018: £4,674,216).

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 31 JULY 2019

23 Ultimate controlling party

The ultimate parent company is Goldwait Limited, a company registered in England and Wales. Goldwait Limited prepares group financial statements and copies can be obtained from 76 New Cavendish Street, London, W1G 9TB.

The ultimate controlling party is M Barnard.
